

System Requirements for MicroLearn Content

This document applies to all MicroLearn titles.

Hardware / Software

- 1GHz or faster processor Intel® Pentium® 4, Intel Centrino®, Intel Xeon®, or Intel Core™ Duo (or compatible) processor
- Windows Vista® Home Premium, Business, Ultimate, Windows 7, Windows 8, Windows 10 or macOS
- 1GB minimum RAM (2GB recommended)
- Generic soundcard needed for audio in courseware.
- 1,024x768 display (1,280x1024 recommended) with 16-bit video card

Browser Compatibility

All courseware will run in Google Chrome, Firefox 50+, Safari and Internet Explorer 9 and above. We recommend running all MicroLearn titles in Google Chrome.

Courseware has been tested on iOS and Android.

Courseware will attempt to play all media through HTML 5 if the browser is compatible.

There is no requirement to have Flash installed as courseware does not use Flash.

Browser Requirements

- JavaScript needs to be enabled for all portfolios.
- Pop ups need to be allowed from within the Learning Management System being used.
- Where courses are updated, cache needs to be emptied locally or via proxy server.
- Iframes need to be enabled on all platforms.

Firewall Settings

- The addresses launch.choota.com and media.choota.com need to be whitelisted/added to your Trusted Sites list.
-
